Subject:	HOT - HOT - HOT FW: For Action: ESF-10 demob schedule
Attachments:	ESF Demob Sequence Forecast v09.04,17.docx

All: **FEMA NEEDS THIS BY 1800 TODAY**

This is a request for what they are calling the "Demob Plan" although in our case, FEMA recognizes that we aren't really demobing much at this point, in fact, we are likely going up in numbers.

The good news is that they are asking only for EPA personnel…. no need to count contractors and no need to count our partners at TGLO or TCEQ (USCG is doing their own Demob Plan for FEMA right now too).

It projects out just through September 19th and they are only asking about personnel as the "INSERT RESOURCE" category.

Can someone please let me know who will be working on this up in REOC.

Thank you! just let me know if you need any clarification (we have a great ES Branch Chief here).

Mike,

Using the attached template, below will be the format we are using to prepare today's required demob report for the Ops Section Chief and FCO. Your resource types (primarily Fed On-Scene Coordinators) should be pretty straightforward, however as discussed your pollution response numbers are going up so understand that 'demob' will not be your net result. If you need to clarify anything, either myself our ops planner Brian Formanek (202-664-7159, cc'd above) are POCs. This is high priority for us today per the Ops Chief. We'd like to have the inputs in by 1400 today. If slipping past that we'll need a call to discuss please. I'll be sending a similar request to USCG for their ESF-10 stuff.

Thanks!

Jim
